**BIRD MIGRATION
A FLIGHT SAFETY RISK**

Training film of the
German Federal Armed Forces
presented by
J. Becker
German Military Geophysical Office

SUMMARY

The video tape starts with the history of aviation, and describes the flight safety hazard to modern aviation caused by migrating birds. The video shows the measures of the Federal Armed Forces with the intention of reducing the birdstrike hazard, especially the existing observation-, detection-, warning- and forecast system of the German Military Geophysical Center with respect to large scale bird migration.

(Length of the training film: 15 minutes).
